

👋 Hi, I'm Lai Anh

I am a design enthusiast with a passion for getting involved in every stage of digital product development, from exploration to distribution. I have experience in user interface design and software development, serving in roles as both a software developer and designer.

I'm looking for new opportunities.
Previously I worked at [Fsel](#).

Experience -Ui/Ux

• Fsel company

- Participate in UX/UI design for the LMS platform system (web, mobile)
- Conduct research on design trends and similar products to generate appropriate ideas
- Engage in direct discussions with the PO and related teams: BA, Developers, QC, etc., to create Wireframes and Prototypes
- Follow the Dev team to ensure the output quality of the product.
